| Winemaking | <i>Sourced from the Beresford Estate Vineyard in the cool sub-region of Blewitt Springs, the grapes were harvested on both colour and flavour development then crushed and fermented for 7-10 days at approximately 24 degrees. Small open top fermenters are used with hand pumping over and rack and returns to ensure optimum extraction of flavor, tannins and colour is achieved. The ferment is then softly pressed using an airbag press, producing a balanced style of wine. Further complexity is developed with 20% of the blend receiving 14 months maturation in seasoned American oak hogsheads and 10% in new French oak. The balance of the blend is matured in 2 and 3-year-old French oak hogsheads.</i> |
